L.A. Lighting Announces New Manufacturers' Reps

Luminaire Manufacturer Partners with Agencies in New York and South Carolina

El Monte, CA:

L.A. Lighting is proud to announce the appointment of several new manufacturers' representatives as it continues to grow and strengthen its nationwide rep network.

Synergy Electrical Sales now represents L.A. Lighting in the New York City area, while AX7 Lighting represents the company in Upstate New York. Premier Lighting & Control is now L.A. Lighting's rep in South Carolina.

"We're excited about the continued evolution of our rep network, and our most recent additions are known for their excellent customer service and years of experience in the lighting industry," said L.A. Lighting Director of Sales and Business Development Angie Carra. "We see big things ahead in these markets and are thrilled to have such strong partners there."

Synergy Electrical Sales, founded in 2001, is a leader in architectural design, energy solutions, and the electrical wholesale channel in Philadelphia, Southern New Jersey, Delaware, and the New York City metro area. AX7 Lighting, which has offices across Upstate New York, is well-known for a high level of service and lighting expertise it has acquired through decades of experience in the lighting industry. Premier Lighting & Control, which reps a wide range of both indoor and outdoor lighting brands, has several offices in South Carolina to provide this rapidly growing region with expert lighting solutions and innovative products.

All three agencies will represent L.A. Lighting's full line of American-made commercial and industrial luminaires and retrofit solutions.

About L.A. Lighting

Los Angeles Lighting Manufacturing Co. is a leading American manufacturer of commercial and industrial luminaires and retrofit solutions. Known for its custom products, reliable lead times, and manufacturing flexibility, the company offers a wide range of standard and modified LED and fluorescent products. All of L.A. Lighting's products are designed and built at its headquarters in El Monte, California, just east of Los Angeles. For more information, visit www.lalighting.com.
