

PARABOLIC LUMINAIRES

The Classic Solution for Low-Glare Applications

GPA620 2X4

Parabolic luminaires have long been used in offices and classrooms for their unique ability to reduce glare and distribute light evenly. L.A. Lighting offers a full line of parabolic luminaires, with grid-mounted, flanged, and surface-mounted models available in both LED and fluorescent. A range of louver configurations, control options, and lumen packages make customizing a parabolic luminaire from L.A. Lighting a snap.

Features and Options

- Nominal 3" deep aluminum parabolic louvers with semi-specular low iridescent finish
- White and black louvers also available
- Frosted white acrylic lenses covering each LED row (no exposed LEDs)
- Range of lumen packages, including High Efficiency (HE) options
- Standard color temperatures: 3000K, 3500K, 4000K, 5000K. Color tunable white also available.
- Emergency battery pack available
- Sensors and wireless control options
- 5-year limited warranty standard (10-year warranty also available)

Applications: Offices, Classrooms, Retail

MPA620
