

HBI600/609

Wire Guard Installation Instructions

Wire Guard Number	Luminaire	Length
WG11-HBI600	HBI600	4'
WG11-HBI609	HBI609	4'

All Wire Guard orders include:

STEP 1

Install self-retaining nuts in slots along sides of luminaire housing. Flat surface of nut must face outside, and holes in nuts must align with holes in housing.

STEP 2

Place the wire guard on the housing and the wire guard clips over it.

STEP 3

From the outside of the housing, insert the thumb screw through the wire guard clip and the self-retaining nut. Gradually tighten the thumb screw to lock the wire guard in place against the housing.

Wire guard installed on 4' HBI600/609
