

FIC110 Reflector/Center Basket Installation Instructions

PARTS LIST

Fixture Housing, 1x
Side Reflector, 2x
Center Basket, 1x

Center Basket Clip, 4x
Sheet Metal Screw, 4x

Step 1 Disconnect power to circuit. Install Fixture Housing within ceiling opening. Release screws (on LED models) or quarter-turn fasteners (on fluorescent models), then remove LED plate/wireway cover. Wire fixture in accordance with National Electrical Code (NEC) and any applicable local code requirements.

Step 2 Position each Side Reflector so the flat side faces the outside of the housing. Slide the outer edge of the reflector under the lip of the housing, and slide the tabs on the inside of the reflector into the slots on the inner brackets.

Wireway cover removal

Step 3 Remove protective film from reflectors. Reinstall LED plate/wireway cover on housing.

Step 4 Install Center Basket Clips by sliding the clips into the holes on the housing and securing them in place with the provided Sheet Metal Screws.

Step 5 Carefully press Center Basket onto Center Basket Clips.
