

Series Name	Type	Example
Starts with G	Grid-mounted fixtures	GHL320, GCR720, GSE120
Starts with F	Recessed flanged fixtures for hard ceilings	FHL320, FCR720, FSE120
Starts with M	Surface-mounted fixtures	MHL320, MCR720, MSE120
Starts with CIT	Vapor tight (suitable for washdown)	CIT100, CIT200, CIT400
Starts with R	LED retrofits	RGHL320, RGPA520, RSTR202
Starts with S	Strip fixtures	STW100, SAW100, STR100
Starts with I	Industrial fixtures	IND400, INW105, INW200
Starts with W	Wraparound fixtures	WAN107, WCP200, WSE200
Starts with H Ends with BL or BY	High bay fixtures	HBN100, GBL220, EBY350
Starts with KD	Knockdown fixtures (require assembly)	KDI100, KDS200
Ends with CR	Cleanroom fixtures	GCR720, FCR710, MCR220
Ends with PA	Parabolic fixtures	GPA620, FPA310, MPA610
Ends with SE	Security fixtures	GSE110, ASE100, WSE500
Ends with WL	Wet location fixtures (for indoor use only)	FWL310, GWL320, MWL320

When multiple widths of a fixture are available, the second to last digit typically indicates the width in feet. Example: GHL310 = **1ft wide** grid-mounted troffer. GHL320 = **2ft wide** grid-mounted troffer

When a fixture is available in multiple lengths, the desired length is indicated in the full part number, not the 6-character description. For example, GHL320 includes both 2x2 and 2x4 troffers.

GHL320-4-**2L**-FSW-PA-DRDM-UNV-2/840 = **2x2 troffer**

GHL320-4-**4L**-FSW-PA-DRDM-UNV-2/840 = **2x4 troffer**
